

**Ophthalmic Materials Test Report for Resistance Coatings**

Water Repellant: Yes = multiple droplets with physical observation of beading., No = flattening or spreading out of the liquid.

Class D Filters: some cleanability due to the presence of an AR Coating.

Class E Filters: No AR Coating means even less cleanability than the Class D Filters.

Stain: Yes = ink mark/stain completely removed with no ghost image., No = ink mark/stain still evident.
